

## Visiting our store?

You will be asked to affirm that you are in good health and have not experienced any [COVID-19 symptoms](#) described by the CDC, and that you have not been in contact with anyone who has tested positive in the past 14 days. We will be monitoring our employee's health daily prior to their shifts.

If we learn that an employee or customer who had been in the store tests positive for the virus, we will close the store for 24 hours to perform a thorough cleaning. Customers will be notified.

All movement within the store will maintain the recommended 6 feet of social distance. If necessary, customers waiting for their appointment will remain outside the studio until they are called in. We do have a waiting space if the store is relatively empty.

**Cleanliness will be a high priority and may delay the start of your appointment by a few minutes. Thank you in advance for your understanding.** Each chair will be sanitized prior to your use.

Employees and customers will be required to wear a face covering from the time they enter the studio, to the time they leave. Employees will sanitize their hands between clients. Gloves and booties will be available in the store if preferred.
